IN VIETNAM

OPEN LETTER

Mr. TRAN DINH LONG

Chairman of the Board of Directors

“Committing itself to lead
in quality, HOA PHAT reaches
to a new stature”

Dear valued Partners and Customers,

Founded in 1992, Hoa Phat Group has become a prestigious brand, gaining the trust of customers with its leading product quality. The Group is in the Top 10 largest private enterprises in Vietnam and tops the list of reputable construction materials trading companies in the country.

Hoa Phat Group operates mainly in the fields of: Iron and Steel (construction steel, hot rolled coil); Steel products (Steel pipe, galvanized steel sheet; drawn steel wire, prestressed concrete steel); Agriculture; and Real Estate. The steel sector plays a key role, accounting for over 80% of the Group's total revenue. Hoa Phat Construction steel and Steel pipe have continuously maintained the No.1 market share in Vietnam, accounting for 32.5% and 31.7% of the total respectively. In 2020, the Group's agriculture sector gained a profit growth rate of triple compared to 2019. Its agricultural products such as Australian beef and clean chicken eggs have been at the top of the market. Real Estate also posted annual stable growth rate.

The Group's development is always associated with the community's benefits. Hoa Phat always implements its corporate social responsibility (CSR) commitment substantially and comes from bottom the heart with the philosophy of "Harmony for joint development". This has been clearly shown through annual programs such as "Loving heartbeat" - sponsoring heart surgeries for poor children, "Hoa Phat supports children to go to school"

or providing daily meals for poor patients, and giving Tet gifts to disadvantaged people... The company has created jobs for more than 25,000 employees, making greater and greater contributions to the State Budget, and well performed social security.

The Board of Directors and employees are always united, unanimous and determined to implement business strategies, ensure commitments to customers, shareholders and build a strong business culture.

The core value of Hoa Phat Group is the philosophy of Harmony for Joint Development. This is reflected in the relationship between its employees, the Group and its partners, agents, shareholders and social community, ensuring the harmony of interests of stakeholders, towards sustainable development. Hoa Phat Group has built a long-term, reliable and trusting partnership with the sale agents who have been with the Group since the very first days of its establishment.

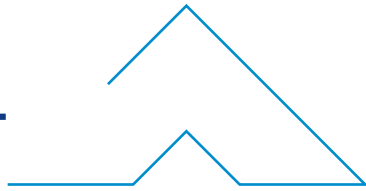

On behalf of the Group, I would like to express my sincere thanks to the trust and support of our Partners. Thanks to the positive cooperation of numerous customers, Hoa Phat has made many outstanding achievements.

Yours Sincerely,

A handwritten signature in blue ink, appearing to be 'Tran Dinh Long', is written in a fluid, cursive style.

Tran Dinh Long

IRON AND STEEL

CONSTRUCTION STEEL

In Vietnam, Hoa Phat is the largest steel producer and has held the No 1 market share for years. With the modern steel refining technologies from iron ore, Hoa Phat Steel meets all the most stringent standards both of Vietnam and the world with high and stable quality, diversified types and grades of steel.

In addition to taking the lead in the domestic market, Hoa Phat Steel products have been exported to 14 countries around the world such as the US, Canada, Australia, Japan, South Korea, Cambodia and Malaysia, ...

IRON AND STEEL

HOT ROLLED COIL (HRC)

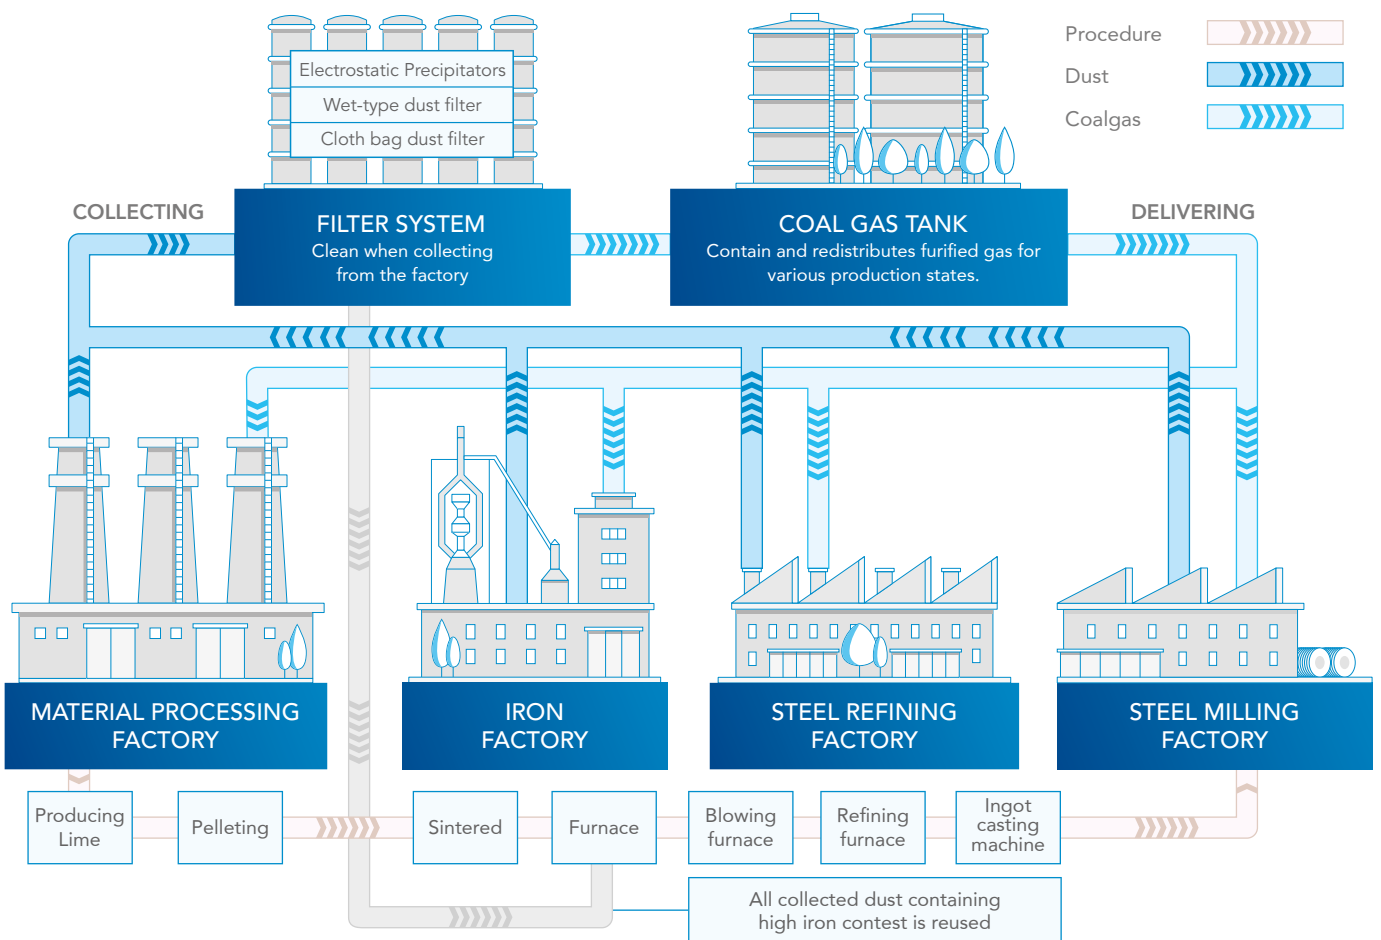

In 2020, Hoa Phat Group has introduced a new strategic product line of hot rolled coils (HRC), in phase 2 of Hoa Phat Dung Quat Steel Intergrated Complex (Quang Ngai Province). With a designed capacity of about 3 million tons per year, the product will contribute to the domestic mechanical engineering industry to have self-control in raw materials, reducing dependence on imported goods.

All equipments of the hot rolled coil factory are designed, supplied and installed by Danieli Group of Italy. Called QSP (Quality Strip Production), this is the most advanced technology line in the world, including multiple equipment assemblies from refining, casting flat to rolling steel flat products.
