FUNIKI REFRIGERATOR - TWO DECADES OF DEVELOPMENT AND TRANSFORMATION

After more than 20 years of establishment and development, Hoa Phat Refrigeration, in general, and the refrigerator sector, in particular, celebrated a significant milestone in early 2024 with the successful export of refrigerators to the US market.

This achievement marks a memorable step in the company's journey of innovation and creativity. Not only meeting domestic consumption demands effectively, Hoa Phat Refrigeration is also strongly expanding its reach to conquer international markets.

The exported refrigerator line is also being localized and widely distributed within the domestic market, allowing consumers access to high-quality products at reasonable prices.

Furthermore, Hoa Phat Refrigeration continuously introduces new and improved products, both in terms of technology and design, notably the tempered glass refrigerator line.

U.S. STANDARDS

- The refrigerator's structure ensures safety against fire, explosion, thermal impact, sharp edges, or physical impacts that could negatively affect users, complying with U.S. and Canadian standards (CAN/CSA C22.2 No.60335-2-24; UL 60335-2-24; CAN/CSA C22.2 No.60335-2-16; UL 60335-1).
- All plastic components used inside and outside the refrigerator have UL94 flammability certification, a standard issued by Underwriters Laboratories of the United States.
- Critical electrical and electronic components have international certifications specific to each component type, meeting U.S. and Canadian regulations.

FUNIKI NEW GENERATION REFRIGERATORS DOUBLE INVERTER

Model		HR T8286GB
Capacity (L)	Total Capacity	286
	Freezer Capacity	78
	Cooling Capacity	208
Product Dimensions	Width (mm)	594
	Height (mm)	1514
	Depth (mm)	653
Product Weight (Kg)		55.5
Power Consumption (W)		50
Compressor Technology		Inverter
Refrigerant		R600a
Cooling Technology		Indirect
Crisper Drawer		No
Sterilization		Silver Nano
Door Material		Tempered Glass

Model
HR T8286GB

Outstanding features

U.S. SAFETY STANDARDS

The HR TB286GB refrigerator uses components certified to meet the UL94 flammability standard, issued by Underwriters Laboratories of the United States.

OPTIMAL FRESHNESS

- **Silver Nano Technology:** Eliminates harmful bacteria and prevents their growth within food compartments.
- **Multi-Dimensional Cooling Technology:** Cold air circulates evenly throughout the compartments, maintaining a stable temperature to preserve food in an ideal environment.
- **Spacious, Dedicated Crisper Drawer:** Keeps fruits and vegetables fresh, crisp, and retains their vitamins.

USER-FRIENDLY

- **Environmentally Friendly:** Uses the new generation R600a refrigerant, which is environmentally friendly and offers high cooling efficiency for stable product operation.
- **Frost-Free:** Indirect cooling function prevents frost buildup, keeping the interior clean and airy.
- **Large Freezer Compartment:** A spacious freezer compartment meets diverse food storage needs, from meat and fish to frozen goods, for extended periods, making it suitable for large families.

MAXIMUM SAVINGS

- **Double Inverter Technology** (new generation HR T8286GB refrigerators): Inverter technology integrated into both the compressor and fan enhances durability, maintains more stable temperatures, and optimizes energy efficiency.
- **Reasonable Price, High Durability:** Saves on initial investment and maintenance costs throughout its lifespan, providing users with peace of mind.

FUNIKI NEW GENERATION REFRIGERATORS GLASS DOOR MINI FRIDGE

HR S646GB

HR S690GB

ELEGANT
TEMPERED
GLASS

Features

- Compact design, ideal for limited spaces.
- Direct cooling system for rapid cooling.
- Silver Nano technology prevents the growth of harmful bacteria.
- Easy temperature control.
- Sealed crisper drawer prevents odor transfer.
- R600a refrigerant - high cooling efficiency.
- Modern and elegant glass door design.

Model		HR S646GB	HR S690GB
Capacity (L)	Total Capacity	46	90
	Freezer Capacity	0	0
	Cooling Capacity	46	90
Product Dimensions	Width (mm)	472	472
	Height (mm)	491	831

FUNIKI REFRIGERATORS INVERTER

HR T8185TDG

HR T8209TDG

Features

- The inverter motor provides quiet operation and maximum energy efficiency.
- Silver Nano technology helps prevent the growth of harmful bacteria.
- Multi-dimensional cooling technology maintains a stable temperature and improves cooling retention.
- Large freezer compartment with frost-resistant technology keeps the refrigerator clean.

Model		HR T8185TDG	HR T8209TDG
Capacity (L)	Total Capacity	185	209
	Freezer Capacity	58	58
	Cooling Capacity	127	151
Product Dimensions	Width (mm)	549	549
	Height (mm)	1315	1435
	Depth (mm)	616	616
Product Weight (Kg)		40	42
Power Consumption (W)		60	65
