12. Approval of amendment of the Company's Charter.
13. Approval of the Audited Consolidated Financial Statements 2025 audited by Deloitte Vietnam Audit Co., Ltd.
14. Other contents (if any).

Article 10. Voting procedures for passing decisions at the General Meeting

1. Form of voting

The voting of the General Meeting's contents is conducted by electronic voting. The ballots have been pre-installed on the Electronic Voting System. Delegates prepare their own electronic devices connected to the internet as prescribed in Point b, Clause 1, Article 4 hereof to vote. Delegates use their login name and password or other identification factors provided in the Notice of Login Information to log in to the Electronic Voting System and vote.

2. Time of voting

Shareholders can start accessing the Electronic Voting System to exercise their voting rights immediately after successfully registering to attend and being provided with the Notice of Login Information until Chairman announces the end of voting for each voting content. After the time of voting for a content ends, the Electronic Voting System will not record any more electronic voting results corresponding to such voting content from Delegates.

3. Principles of voting

- One (01) common share is equivalent to one (01) voting right;
- All issues in the agenda of the General Meeting are approved by obtaining the votes of all Delegates attending the meeting using electronic voting on the “**Voting - Election**” interface of the Electronic Voting System;

4. Ways to vote

- a. Delegates shall register to attend the GMS directly with the Organizing Committee before logging into the Electronic Voting System according to the instructions in the Notice of Login Information provided to each delegate and vote at the “**Voting – Election**” interface of the Electronic Voting System at the link address: <https://ezgsm.fpts.com.vn>.
- b. The General Meeting shall vote on each issue in the agenda. When voting using electronic means, for each issue, Delegates shall select one (01) of the three (03) options “**Agree**”, “**Disagree**”, “**Abstain**” on Ballots installed in the Electronic Voting System. After completing all voting contents at one time, Delegates shall click “**Vote**” to send voting results to the Electronic Voting System. At the end of the voting time of each vote, if a Delegate does not press the “**Vote**” confirmation button on the Electronic Voting System, the Delegate’s ballot will be considered as a non-returnable ballot for contents that need to be voted on at this voting session.
- c. In case where the agenda is supplemented with contents proposed by shareholders/groups of shareholders according to the Charter and has been approved by the GMS, Delegates can vote to supplement such contents on the interface of the Electronic Voting System. If Delegates do not vote to supplement new contents, their ballots will be considered as a non-returnable ballot for these contents.
- d. Recording method of the electronic voting system: Delegates may change voting results many times but cannot cancel voting results. The electronic voting system only records the final voting results at the end of the voting time of each vote according to the direction of Chairman.
- e. In case where Delegates have registered to attend the GMS but cannot attend continuously until the end of the agenda, they may vote on contents that require shareholders’ opinions before logging out of the Electronic Voting System. If Delegates do not vote on remaining contents of the General Meeting, their ballots

will be considered as a non-returnable vote for these contents.

5. Validity of voting contents and ballots

- a. On ballots, the voting content is valid when Delegates tick one (01) out of three (03) voting options for such content. Invalid voting content is the content in which Delegates tick more than one voting option box for the same voting content or leaves any voting option box blank for certain voting content.

For ballots with invalid voting content, the electronic voting system will send a warning to Delegates attending the General Meeting of Shareholders in the form of electronic voting. Delegates shall be responsible for adjusting their voting ballot to make them valid and clicking “**Vote**” to send voting results to the system. The system will not record any ballot with invalid voting content and Delegates are considered not to have participated in voting through the electronic voting system if their ballots are not adjusted to be valid.

- b. A valid ballot is a ballot that contains all valid voting content and the submission (clicking “**Vote**”) is completed on the Electronic Voting System before the end of the voting time for each voting session as directed by Chairman.
- c. In case where a Delegate has successfully registered to attend in person and logged into the Electronic Voting System but does not check any voting option box on the ballot at the “**Voting – Election**” interface on the Electronic Voting System, it will be understood that such Delegate refuses the right and does not vote on that content. The Delegate’s ballot in this case is considered a Non-Returnable Ballot.

Article 11. Ways to count votes

1. Ballots of each Delegate are recorded by the system by: Total number of ballots for each issue, total number of valid, invalid, agree, disagree and abstain ballots; corresponding percentage of the total number of ballots of Delegates attending the meeting/attending and voting. Voting results are compiled by the software and calculated according to the percentage.
2. In case where Delegates have questions about voting results, Chairman shall consider and decide immediately at the General Meeting.
3. Announcement of vote counting results
 - After the vote counting process is completed, the Vote Counting Committee shall prepare a vote counting minutes with the signatures of all members of the Vote Counting Committee.
 - Head of the Vote Counting Committee shall, on behalf of the Vote Counting Committee, read the vote counting minutes before the General Meeting.

Article 12. Speaking at the General Meeting

When discussing issues in the agenda of the General Meeting, Delegates must comply

with the following regulations:

1. Principle:

The discussion at the General Meeting is coordinated by Chairman or a representative in the Organizing Committee of the General Meeting in compliance with the Company's Charter. The discussion is only conducted within the prescribed time and within the scope of issues presented in the agenda approved by the GMS, and the content does not violate the law, is related to personal issues or exceeds the authority of the company.

2. Ways to submit questions for discussion:

Delegates attending the GMS can ask questions by speaking directly at the General Meeting. When Delegates need to speak or debate, they must raise their hands, and can only speak when Chairman agrees. Each Delegate shall speak for no more than 03 minutes and the content must be concise and avoid duplication.

3. Responding to Delegates' opinions:

- Based on discussion contents of Delegates, Chairman or a member designated by Chairman shall respond to Delegates' opinions.
- Contributions or questions will be collected and answered sequentially and can only be given during the discussion session of the General Meeting. In case where many shareholders have the same opinions, Chairman will select and respond to all shareholders once.
- Chairman of the General Meeting shall only directly answer key questions and questions related to the contents of the General Meeting agenda and representing many shareholders, not directly answer and explain in detail the contents that have been announced, have been stipulated in legal documents, or the contents of a specialized, detailed explanation nature serving the specific requirements of shareholders.
- In case of time constraints, questions that have not been directly answered at the General Meeting will be considered by the Company and answered to shareholders in an appropriate manner.

Article 13. Force majeure events

1. During the General Meeting takes place, there may be force majeure events such as natural disasters, fires, power outages, loss of Internet connection or other technical problems, requests or instructions from the Government and other state agencies, competent persons, etc. The Company shall mobilize all resources to overcome the problems and the General Meeting can continue, but not more than 60 minutes from the time of the problems.
2. In case where force majeure events cannot be overcome so that the General Meeting can continue within 60 minutes, Chairman shall declare a temporary suspension of

the General Meeting, all issues that have been voted on and passed before the suspension (if any) will be canceled. These issues will be voted on again at the nearest General Meeting of Shareholders.

CHAPTER V

CLOSURE OF THE GENERAL MEETING

Article 14. Minutes of the General Meeting of Shareholders

All contents of the GMS are made in writing by Secretary. The Meeting Minutes are read and approved before the closure of the Meeting and kept in General Meeting of Shareholders documents of the Company.

Article 15. Resolutions of the General Meeting of Shareholders

Based on the results of the General Meeting, Chairman shall issue the GMS resolution for issues approved by the General Meeting.

Shareholders, members of the Board of Directors, Board of Supervisors and General Director have the right to request a Court or Arbitration to review and cancel part or all of decisions of the General Meeting in accordance with the Enterprise Law.

Article 16. Cases of unsuccessful organization of the General Meeting of Shareholders

1. If the first meeting is not eligible to organize according to Article 3 of this Regulation, the second meeting shall be convened within 30 days from the date the first meeting is expected to open. The second meeting of the General Meeting of Shareholders shall be organized when the number of attending shareholders represents at least 33% of the voting shares.
2. In the case that the second meeting is not eligible to organize according to Clause 1 of this Article, the third meeting shall be convened within 20 days from the date the second meeting is expected to open. In this case, the meeting of the General Meeting of Shareholders is conducted regardless of the number of attending shareholders.

Article 17. Some other provisions

After the meeting, Chairman of the Board of Directors undertakes to successfully implement production and business plans and other issues approved at the General Meeting and declares the General Meeting closed.

CHAPTER VI

- Having full legal capacity and not being subject to prohibitions on managing enterprises as prescribed by the Enterprise Law;
- Having professional qualifications and experience in business management or in main business lines of the Company. BOD members do not necessarily have to be the Company's shareholders;
- Members of the Company's Board of Directors may not simultaneously be members of the Board of Directors or Board of Members of more than 5 other companies;
- At the beginning of their term, all members of the Board of Directors must fully meet the requirements stipulated by Law, the Company's Charter, the Company's governance regulations and internal rules. Members of the Board of Directors must notify Chairman of the Board of Directors if there are any changes during their term.

3. **Nomination and candidacy of BOD members**

- Shareholders have the right to accumulate their voting rights to nominate candidates for the BOD. Shareholders or groups of shareholders holding a certain number of voting shares may nominate a number of candidates for the BOD according to the following ratios:
 - + Holding from 10% to less than 15% may nominate a maximum of 03 candidates.
 - + Holding from 15% to less than 20% may nominate a maximum of 04 candidates.
 - + Holding from 20% to less than 25% may nominate a maximum of 05 candidates.
 - + Holding from 25% to less than 30% may nominate a maximum of 06 candidates.
 - + Holding from 35% to less than 40% may nominate a maximum of 07 candidates.
 - + Holding from 40% to less than 45% may nominate a maximum of 08 candidates.
 - + Holding from 45% or more may nominate a maximum of 10 candidates.
- In case where the number of candidates for the BOD, both through nomination and candidacy, is still insufficient, the incumbent BOD may nominate additional candidates or organize nomination according to a mechanism stipulated by the Company. The nomination mechanism or way for the incumbent BOD to nominate candidates for the BOD must be clearly announced and approved by the

GMS before starting nomination.

Article 3. Number, conditions and standards for BOS members

1. **Number of BOS members:** 03 members or another number if the Annual GMS decides otherwise, but ensuring that the number of BOS members is at least 03 and at most 05 as stipulated in the Company's Charter.
2. **Conditions and standards for BOS members:**
 - Holding a university degree or higher in one of the following majors: economics, finance, accounting, auditing, law, business administration, or a major relevant to the business activities of the company, and having at least 03 years of work experience; Head of the Board of Supervisors must have at least 05 years of work experience;
 - Having full legal capacity and not being subject to prohibitions on establishing and managing enterprises as prescribed by the Enterprise Law;
 - Not being a person who was or is currently being criminally prosecuted, sentenced to imprisonment or whose right to practice a profession has been revoked by a court as prescribed by law;
 - At the time of election or appointment, not being directly involved in any case under investigation or verification by competent authorities;
 - Not being spouse, father, adoptive father, mother, adoptive mother, child, adopted child, sibling of a member of the Board of Directors, General Director, or other managers;
 - Not being a company manager;
 - Members of the Board of Supervisors are not necessarily the Company's shareholders or employees.
3. **Nomination and candidacy of BOS members**
 - Shareholders have the right to accumulate their voting rights to nominate candidates for the BOS. Shareholders or groups of shareholders holding a certain number of voting shares may nominate a number of candidates for the BOD according to the following ratios:
 - + Holding from 10% to less than 15% may nominate 03 members.
 - In case where the number of candidates for the BOS, both through nomination and candidacy, is still insufficient, the BOS may nominate additional candidates according to a mechanism stipulated by the Company. The nomination mechanism or way for the incumbent BOS to nominate candidates for the BOS must be clearly announced and approved by the GMS before starting nomination.

Article 4. Applications and deadlines for receiving applications for candidacy and nomination to elect members to the BOD and the BOS

1. Applications for candidacy and nomination to the BOD and the BOS include:

- Candidacy (nomination) form for members of the BOD or the BOS (using the template);
- Curriculum vitae filled out by the candidate (using the template);
- Notarized copies of: Citizen Identity Card/Passport, educational and professional qualifications.
- Minutes of group meeting + List of groups of shareholders (where the candidate is nominated by a group of shareholders);
- Documents confirming the ownership percentage of a shareholder/group of shareholders meeting the nomination requirements as stipulated herein.

2. Deadline for receiving applications:

Applications for nomination or candidacy can be submitted directly or sent by registered mail, provided that the GMS Organizing Committee receives the applications before 5:00 PM on April 09, 2026.

Place to receive applications: Hoa Phat Group Joint Stock Company

Address: 6th Floor, Hoa Phat Building, 66 Nguyen Du Street, Cua Nam Ward, Hanoi City.

Telephone: 024 6284 8666

Fax: 024 6283 3456

- 3.** Nominees/candidates for the BOD and the BOS shall be legally responsible to the General Meeting of Shareholders for the accuracy and truthfulness of the content in their applications. Only nomination or candidacy applications that meet the requirements and candidates who meet the standards for members of the BOD and the BOS will be included in the list announced at the General Meeting.

Article 5. Election method

1. Voting for members of the BOD and the BOS shall be conducted by electronic voting and cumulative voting;
2. Each shareholder or his/her authorized representative attending the meeting shall have a total number of votes corresponding to the total number of voting shares (including ownership and proxy) multiplied by the number of members to be elected to the BOD or the BOS;
3. Shareholders or their authorized representatives attending the meeting may accumulate all their votes to vote for one candidate or divide their votes among selected candidates. However, shareholders or their authorized representatives

attending the meeting may only vote for a maximum of 10 candidates for the BOD and 03 candidates for the BOS (or other numbers if the General Meeting of Shareholders decides otherwise as stipulated in clause 1, Article 2 and clause 1, Article 3 above) out of the total number of nominated candidates for the BOD and the BOS.

For example: The GMS votes to elect 3 BOS members from a total of 7 candidates. Shareholder Nguyen Van A holds (*including ownership and proxy*) 100,000 voting shares. Therefore, the total number of voting rights held by shareholder Nguyen Van A is: **(100,000 x 3) = 300,000 votes**. Shareholder Nguyen Van A can cast cumulative votes using the following methods:

- a. Accumulate all 300,000 votes to 01 candidate for BOS member.
- b. Divide 300,000 votes equally among 03 candidates for BOS members (*equivalent to each candidate receiving 100,000 votes from shareholder Nguyen Van A*).
- c. Divide 300,000 votes among several candidates for BOS members by subdividing 300,000 voting rights among each candidate. Shareholder Nguyen Van A can accumulate his 300,000 votes to 3 candidates at different voting right ratios, but the total number of votes for those candidates cannot exceed 300,000.

Article 6. Way to conduct election

1. Election Papers have been pre-installed on the electronic voting system. Some terms used in Election Papers are interpreted and construed as follows:
 - “Total number of representative voting papers”: Means the number of voting papers, including the number of voting papers owned by delegates and/or authorized by one or more other delegates;
 - “Total number of election papers for BOD members”: Means the Total number of representative voting papers multiplied by (x) the number of members to be elected to the BOD for the term 2026-2031, as approved by the General Meeting of Shareholders.
 - “Total number of election papers for BOS members”: Means the Total number of representative voting papers multiplied by (x) the number of members to be elected to the BOS for the term 2026-2031, as approved by the General Meeting of Shareholders.
 - Delegates must prepare their own internet-connected electronic devices (e.g., computers, tablets, mobile phones, etc.) to log into the electronic voting system and cast their votes.
2. How to fill out Election Papers

Each Election Paper for the BOD and the BOS can elect a maximum number of members for the BOD and the BOS for the term 2026-2031 as approved by the General Meeting of Shareholders.

Delegates should cast their votes according to the following instructions:

- **Case 1: Delegates cast all their votes for one or more candidates**

Delegates tick the box in the “Equally accumulative voting” column for corresponding candidates.

In this case, the system will automatically divide votes among selected candidates. If the number of votes divided among the candidates is odd, the system will automatically cancel the odd portion, and the recorded number of votes will be rounded down.

- **Case 2: Delegates cast unequal votes for multiple candidates**

Delegates fill out the number of votes in the “Number of votes” box for corresponding candidates.

3. Way to elect

Delegates, immediately after successfully registering to attend the meeting and casting their electronic votes with the Organizing Committee on the day of the General Meeting, have the right to use the login username and password provided on the Notice of Login Information to log into the Electronic Voting System and cast their votes. Voting will take place until Chairman of the General Meeting or the Vote Counting Committee signals the end of the voting period. After the end of the voting period, the system will not record any further electronic voting results from Delegates.

After completing votes, delegates click “Vote” to submit their voting results to the system. Delegates reserve the right to change their voting results until the end of the electronic voting period. The recorded voting result is the final submitted by delegates to the system at the end of the electronic voting as stipulated.

4. Invalid Election Papers

The following votes are considered invalid by the system and will be counted as non-returnable votes:

- The number of candidates voted for by delegates is greater than the number of members to be elected to the BOD, BOS for the term 2026-2031 as approved by the General Meeting of Shareholders;
- Election Papers where the total number of votes for candidates does not equal the Total number of votes for the BOD/ BOS members represented by such shareholder;
- Election Papers submitted by Delegates after the end of the voting period as stipulated.

For invalid votes, the electronic voting system will issue a warning to delegates attending the General Meeting of Shareholders on the electronic voting system. Delegates are responsible for adjusting their votes to be valid. The system does not record invalid votes, and delegates are considered as not participating in the election through the electronic voting system.

Article 7. Vote Counting Committee and vote counting

1. The Vote Counting Committee recognizes the vote counting results truthfully, accurately, and completely, and takes responsibility to Chairman of the meeting and the entire General Meeting of Shareholders. The vote counting must be conducted immediately after the end of the voting.
2. The Vote Counting Committee is responsible for preparing vote counting minutes and announcing vote counting results to the General Meeting of Shareholders. The Minutes and all Election Papers must be returned to Chairman of the meeting.

Article 8. Principles for determining elected members of the BOD and the BOS

1. The number of elected members of the BOD and the BOS is determined by the number of votes received, from highest to lowest, starting with candidate with the highest number of votes until number of members stipulated in this Regulation is reached. In the case of two or more candidates receiving the same number of votes, priority will be given to those who have worked and been associated with the Company for a long time, and who do not hold concurrent positions in other organizations outside the Company or its affiliated units. If such candidates' status remains the same, the General Meeting will conduct a re-election among candidates with the equal number of votes. The winner will be candidates with the higher number of votes.
2. If after the first election, the number of members of the BOD and the BOS is insufficient, the General Meeting will conduct a second election among the remaining nominees/candidates; if after the second election the number is still insufficient, the General Meeting and Chairman will decide whether to continue the election.

Article 9. Resolution of complaints regarding elections and vote counting

1. In case of shareholder complaints or a need for a review of election results, the BOS will carry out a re-examination directly.
2. Complaints regarding elections and vote counting will be resolved by Chairman of the General Meeting and recorded in the GMS Minutes.

Article 10. Validity

1. This Election Regulation comes into full force immediately upon being approved by the General Meeting of Shareholders and becomes invalid upon the conclusion of

the Annual General Meeting of Shareholders 2026 of Hoa Phat Group Joint Stock Company.

2. Delegates and parties attending the General Meeting are responsible for complying with this Regulation./.

REPORT OF THE BOARD OF DIRECTORS

Respectfully to the General Meeting of Shareholders of Hoa Phat Group Joint Stock Company,

Pursuant to the Enterprise Law 2020, as amended and supplemented in 2025;

Pursuant to the current Charter of Hoa Phat Group Joint Stock Company;

The Board of Directors would like to send to Shareholders the report on operations in 2025 as follows:

1. Assessment of the Board of Directors on operations

Overcoming the challenges of the domestic and international economies, Hoa Phat Group experienced 2025 with many highlights.

Iron and Steel sector

The biggest highlight of the year is the completion of the Hoa Phat Dung Quat 2 Iron and Steel Production Complex. The project was commenced in the first quarter of 2022, covering an area of 280 hectares with a total investment of approximately VND 85,000 billion. Its designed capacity is 6 million tons of steel per year, focusing on high-quality hot-rolled steel coils for manufacturing, mechanical, automotive, shipbuilding, and household appliance industries. The complex's production lines utilize a synchronized technology system from Europe, aiming for high-tech product lines.

In September 2025, blast furnace No. 2 was put into official operation, marking the completion of the entire project on schedule. Hoa Phat's crude steel production capacity will increase to 16 million tons per year from the end of 2026, placing it in the Top 30 globally. Of which, the Hoa Phat Dung Quat Iron and Steel Production Complex alone contributes approximately 12 million tons. This is the basis for the company to record a crude steel output of 11 million tons for the first time in 2025, an increase of approximately 26% compared to the previous year. Also in 2025, Hoa Phat and Primetals signed a contract for the supply of a high-quality steel casting and rolling line with a capacity of 500,000 tons/year. With this line, Hoa Phat Group will boost the production of high-quality steel products. The rolling line is planned to supply the first products in the third quarter of 2026 and the casting line will be put into operation in the fourth quarter of 2026.

On December 19, 2025, Hoa Phat commenced construction of the Hoa Phat Dung

Quat Railway Rail and Special Steel Plant with a total investment of over VND 10 trillion and a designed capacity of 700,000 tons/year. The plant is equipped with state-of-the-art technology from SMS Group (Germany) and Primetals (UK), utilizing a highly flexible and precise four-high mill stand system.

The first high-speed railway rail product is expected to be launched in 2027, making Hoa Phat the first and only enterprise in Southeast Asia to produce this type of steel, ready to supply key railway projects. The product complies with the world's strictest standards, including EN 3674 (Europe), JIS E1120 (Japan), and TB/T2344 (China).

In terms of exports, in 2025, the Group's HRC products continued to maintain their advantage in the EU, the US and India thanks to the decision not to impose anti-dumping duties from these countries. This is a crucial driving force for the Group to boost export volume to international markets. In the Australian market, the Anti-Dumping Commission (ADC) concluded that the price deviation of Hoa Phat's reinforcing steel was below the regulated threshold (less than 2%), so it ended the investigation and did not impose anti-dumping duties on this product, opening up export opportunities in the Australia - Pacific region.

Steel Products sector

In 2024, the Group officially commenced the Hoa Phat Long An Steel Pipe Plant project with a total investment of VND 2,500 billion on an area of nearly 15 hectares. After more than two years of implementation, the entire plant system has completed phase 1 and begun partial operation since January 2025. From January 2026, the Plant starts operating synchronously and stably in all workshops and production lines, ready to supply high-quality products to the market.

The Hoa Phat Long An Steel Pipe Plant possesses a modern and advanced production line system. A highlight is the hot-dip galvanized pipe line capable of galvanizing 03 pipes per draw, significantly increasing productivity compared to older technologies. The new plant's operation helps the Company better serve the market and customers in the Southern region where numerous infrastructure projects are being strengthened.

Throughout the year, deeply processed steel products continued to be present in major infrastructure projects. Steel pipes were used at Terminal 3 of Tan Son Nhat International Airport, the National Exhibition and Convention Center, the APEC 2027 Convention Center, and other civil and industrial works. Pre-stressed steel was supplied to expressways and key transportation projects while galvanized steel sheet maintained its market share at coastal works where high corrosion resistance and durability are required.

Hoa Phat's container products made its mark by continuously signing contracts and delivering products to major shipping and logistics companies worldwide such as Hapag

Lloyd, CMA CMG, SeaCub and many large domestic transport companies such as VIMC Lines, Vinafco and Tan Cang Saigon Corporation.

Particularly in 2025, Hoa Phat Group obtained many positive results in anti-dumping and trade review cases regarding its steel products in export markets. In the European Union (EU), the US and India, Hoa Phat Group's steel pipe products are not subject to anti-dumping duties, helping Hoa Phat maintain its competitive advantage and support its global export chain. In early December, the Canada Border Services Agency (CBSA) announced that HoaPhat Steel Wire Co., Ltd.'s galvanized steel wire is subject to an anti-dumping duty of only 5.7% – the lowest among investigated enterprises and potentially zero if the export price is higher than or equal to the normal value.

Agriculture sector

2025 marks the 10th anniversary of Hoa Phat Group's entry into the Agriculture sector. Revenue reaching VND 8,326 billion, up 18% compared to 2024; after-tax profit reaching VND 1,600 billion, an increase of 55% compared to the same period; and a system of plants and farms stretching from North to South, are the figures Hoa Phat Agriculture has achieved after a decade of "Style Building".

Hoa Phat Agriculture is among Top 13 in animal feed, takes the lead in supplying whole Australian cattle, and ranks 1st in the clean chicken egg market in the Northern region with 336 million eggs per year. Pig farming productivity reaches 32-34 weaned piglets per sow per year, 1.5 times higher than the average of Vietnam. This position is secured by selecting high-yield purebred breeds, applying a three-zone biosecurity system and operating according to an industrial model.

IPO of Hoa Phat Agriculture (HPA) concluded in mid-December with a total deposit of over 35.7 million stocks, exceeding the planned issuance of 30 million stocks by 19%. HPA offered stocks at VND 41,900 per share, committing to a minimum dividend of VND 3,000 per stock annually from 2026 to 2030. By 2030, HPA aims to hit over VND 12,000 billion in revenue, approximately VND 1,750 billion in after-tax profit with ROE of above 25%.

Real Estate sector

2025 marks a turning point for the real estate segment within the Hoa Phat ecosystem. With a sustainable and prudent development strategy, the Board of Directors has directed to successfully accomplish key objectives regarding the expansion of industrial land reserves and implement large-scale social housing projects.

Throughout the year, Hoa Phat continuously developed industrial parks in strategic locations in the Northern region. In Hung Yen, the Group invested in two more industrial parks: Ly Thuong Kiet IP with a scale of 235 hectares (phase 1) and IP No. 6 with a scale of 230 hectares (phase 1), with a total investment of over VND 5,500 billion. The Hoang

Dieu IP project in Hai Phong has a scale of 245 hectares, with a total investment of nearly VND 3,400 billion. The Dong Phuc IP project in Bac Ninh has a scale of 354.6 hectares, with a total investment of over VND 3,700 billion.

In parallel with its industrial park development strategy, and with a focus on sustainable development and social welfare, Hoa Phat has commenced the construction of an affordable housing project in Yen My II IP, Hung Yen province. Spanning 31 hectares and with approximately 9,000 apartments and 242 townhouses, the project will help address the housing needs of tens of thousands of workers in industrial parks and clusters in Hung Yen province and local residents.

Home Appliances sector

The Home Appliance sector (including refrigeration and home electrical appliance products) achieved revenue five times higher than in 2021, when Hoa Phat Home Appliances Corporation was established.

Despite being considered a “rookie” in the home appliances sector, Hoa Phat has made its mark only after a few years of entering the market. Inheriting the solid foundation of production, management and supply chain from the Group, the subsidiary companies of Hoa Phat Home Appliances Corporation have gradually expanded into home appliances with a diverse range of products, from water purifiers, air coolers, induction cookers to household appliances serving essential family needs.

It is the unique strategic direction which enables Hoa Phat to achieve rapid growth in the home appliances sector: Instead of relying entirely on existing OEM options, Hoa Phat chooses self-sufficient production as the foundation for sustainable development. This approach allows Hoa Phat to be more proactive in controlling quality, technology and product development roadmap. A proactive production platform also optimizes costs, shortens time to launch products to the market and maintains reasonable prices and stable supply; while supporting design improvements, feature upgrades and user experience enhancements.

Besides large-scale production investment, the Board of Directors believes Hoa Phat’s success in the home appliances sector stems from its product orientation towards the mass market, while still ensuring diversity and full features. Furthermore, from a market perspective, changing consumer tastes create favorable opportunities for Hoa Phat’s products. Many consumers today prefer technology and design, and are willing to change household products more quickly than before.

2. Assessment of the Board of Directors on operations of the Board of Management

Over the past year, the BOD has strictly fulfilled its supervisory and strategic guidance role through a system of scheduled and unscheduled reports, ensuring that all

operations of the BOM closely adhere to the resolutions of the GMS and the BOD. The smooth and decisive coordination between the two sides has helped the Group maintain stability and make timely decisions. The BOD acknowledges and highly appreciates the proactive spirit and flexibility of the BOM in the face of market fluctuations, enabling the Group to successfully complete its business plan 2025. In particular, the BOM has always upheld the law, performed its duties honestly and transparently, and ensured the maximum benefit for shareholders in accordance with the Company's Charter.

3. Main operations of the Board of Directors during the year

In 2025, the Board of Directors issued 15 Resolutions and approved many important contents:

- Approval of the capital increase at Hoa Phat Iron and Steel Joint Stock Company; Hoa Phat Steel Products Joint Stock Company; Hoa Phat Real Estate Development Joint Stock Company; Hoa Phat Home Appliances Joint Stock Company;
- Approval of the production and business plan, amendments to the Group's registered business lines, amendments to the Company's Charter, approval of the dividend payment plan for 2024 and the expected dividend payout ratio for 2025, etc. to be submitted to the GMS for decision;
- And other important decisions.

In addition, transactions between the Company, its subsidiary companies and BOD members and related parties comply with relevant regulations on authority to approve. These transactions have been disclosed in the Corporate Governance Report posted on the Group's website at www.hoaphat.com.vn.

4. Plan and direction

2025 has closed with impressive figures, affirming the Group's capabilities and sound management. However, the journey ahead demands a more far-sighted and decisive vision. With that mindset, the Group's Board of Directors has set the following directions for 2026:

- Continue researching and producing high-quality steel products such as railway steel, steel for train and high-speed rail wheelbase and high-quality steel wire for mechanical engineering to serve key national projects and for export to the world;
- Explore and diversify sources of raw materials for steel production and research investment opportunities in mineral projects domestically and internationally;
- Continue closely monitoring market developments and changes in international trade policies in countries to adapt to price and supply chain risks while diversifying sales markets;
- Allocate resources and manpower on the Group's key projects in 2026, with a focus

on steel production and real estate projects.

The above is the report of the Board of Directors.

We kindly submit it to the General Meeting of Shareholders for consideration and approval.

**REPORT ON PRODUCTION AND BUSINESS RESULTS IN 2025
AND PLAN FOR 2026**

Respectfully to the General Meeting of Shareholders of Hoa Phat Group Joint Stock Company,

The Board of Management would like to report to Shareholders the production and business results in 2025 and the plan for 2026.

I. Summary of the production and business situation in 2025

In 2025, the global economy continued to operate amidst geopolitical volatility and restructuring of global supply chains. The prolonged tariff war; armed conflicts between Russia and Ukraine, between the US, Israel and Iran causing tensions across the Middle East; potential conflict risks in South America and the Asia-Pacific; along with climate change and natural disasters – all these factors resulted in a slowdown in global economic growth. Short-term favorable factors such as fiscal stimulus policies or interest rate lowering policies in some countries could offset the long-term risks from high debt, inflation, and geopolitical instability. Global growth in 2025 stabilized at 3.0-3.1%, lower than the rate of 3.2% in 2024 and uneven across regions (*IMF, 2025*).

The socio-economic situation in Vietnam in 2025 underwent significant changes. The institutional revolution, streamlining of organizational structures and the operation of the two-tier local government system which have been implemented synchronously and decisively; along with the prevention and mitigation of unusual natural disasters, ensuring order, security, and social welfare, etc. Furthermore, the Party and the State have issued and directed the implementation of 9 strategic policies, 99 Laws and Resolutions, 377 Decrees, and many other guiding documents – the most ever – creating breakthroughs in institutions, prioritizing the development of science and technology, digital transformation, the development of the private and state-owned economies, and gradually perfecting the legal framework for new economic models. The coordinated implementation of monetary, fiscal and other macroeconomic policies has significantly contributed to achieving high growth targets, controlling inflation, stabilizing the macroeconomy, and ensuring social welfare. In that context, Vietnam's economy in 2025 has achieved impressive growth rate, with GDP estimated at 8.02%, placing it among the leading economies in the world. The GDP in 2025 is estimated at US\$514 billion, up 5 places to 32nd place globally; GDP per capita reached approximately US\$5,026, 1.4 times

higher than in 2020, placing Vietnam in the group of upper middle-income countries, exceeding the set target. In the increase in the total added value of the economy, the agriculture, forestry and fisheries sector grew by 3.48%, contributing 3.59%; the industry and construction sector by 8.8%, contributing 35.15%; and the service sector by 8.62%. Industrial production in 2025 continued its positive growth trend, with businesses boosting production compared to the same period of the previous year. Within the industry and construction sector, the processing and manufacturing industry grew by 9.97% which is the highest growth rate in the period 2019-2025, continuing to be the driving force of economic growth, contributing 31.49%. (*Source: nso.gov.vn*)

With the strength of domestic economic growth, the Vietnamese steel market was also gradually recovered with positive results in 2025. Crude steel production for the whole year of 2025 reached a record high in the last 05 years, surpassing the milestone of 24.7 million tons in 2020, up 12% compared to the same period in 2024; Consumption hit 24.1 million tons, an increase of 12.9% compared to the same period; Exports reached 3.15 million tons, up 12.8% compared to the same period in 2024. This shows the trend of Vietnam's steel industry becoming modern and integrated with closed-loop metallurgical complexes from upstream to downstream. Total finished steel production reached 32.3 million tons, up 9.6% compared to the same period in 2024. Total finished steel sales volume reached 31.6 million tons, up 8.7% compared to the same period, with hot-rolled coil (HRC) achieving the highest increase at 28.5%, construction steel at 11.6%, and steel pipes at 6.5%. Cold-rolled coil (CRC) and galvanized steel sheets & SPM decreased by 7.9% and 12.5% respectively compared to the same period. Exports of finished steel products reached nearly 5 million tons, a significant decrease of 37.9% compared to the same period last year.

Prices of raw materials for steel production in 2025 are generally stable, with a slight decrease compared to last year. Domestic steel demand has shown positive signs, growing compared to the previous year; however, the efficiency achieved by plants is not as high as expected. Exports have decreased sharply due to widespread global trade protection measures. Manufacturers maintain export volumes to balance production and business plans. In 2025, the steel industry in the country in general and at Hoa Phat Group in particular recorded positive growth signals. Hoa Phat Group achieved VND 158,332 billion in revenue and VND 15,515 billion in net profit, up 13% and 29% respectively compared to 2024. Total contributions to the State budget in the year reached VND 12,954 billion. Of which, Hoa Phat contributed the most to the budget in Quang Ngai, Hung Yen and Hai Duong provinces. Hoa Phat Group continues to maintain its high position in the Top 10 largest private enterprises in Vietnam and is the 2nd largest private enterprise in the country. This is the 18th consecutive year that Hoa Phat has been honored in the ranking of the largest companies in Vietnam (VNR 500).

1. Details of operations of each sector

The Steel sector (including Iron and Steel and Steel Products) continues to play a key role as the core business of the Group. Revenue and after-tax profit from this sector accounted for 93% and 83% respectively of the whole Group. In 2025, the sales volume of HRC, construction steel, high-quality steel, and steel billets reached 10.6 million tons, an increase of 31% compared to 2024. Of which, Hoa Phat supplied more than 5 million tons of HRC to the market, up 73% compared to 2024. The highest HRC consumption in 2025 is thanks to the contribution of the Dung Quat 2 project which has been completed and has made products since September 2025.

Construction steel, high-quality steel and steel billets reached 5.52 million tons, up 6% compared to the same period last year. Hoa Phat's long steel market share consolidated its No. 1 position with 36.5%. In addition, Hoa Phat supplied nearly 850,000 tons of steel pipes, up 20% compared to 2024. Galvanized steel sheet of all kinds reached 423,486 tons, down 5% compared to 2024. Steel pipe market share continued to be No. 1 with 31.21% at the end of 2025. Hoa Phat Steel Sheet is in the Top 5 businesses with the largest market share.

In 2025, steel exports faced difficulties due to tariff and technical barriers, trade protection measures, regional political conflicts, and the instability in the global steel market. Despite the slow recovery of global steel demand, Hoa Phat's exports of steel billets, construction steel and HRC still reached 1.85 million tons, a slight decrease compared to 2024. Net revenue from exports reached VND 24,644 billion, accounting for 16% of the Group's total revenue in 2025. Hoa Phat's export markets are very diverse, cover with over 40 countries and territories such as Southeast Asia, Japan, Korea, the US, Canada, and European countries, etc. Exports of steel pipe, galvanized steel sheet and prestressed steel reached 222,589 tons, contributing 15% the total volume of Hoa Phat steel products supplied to the market. Hoa Phat has achieved positive results in anti-dumping cases and trade reviews against steel products in export markets such as the EU, Canada, Australia, India, etc. This helps Hoa Phat maintain its competitive advantage and stable number of orders in these demanding markets, while demonstrating the Group's large production capacity, good cost management and transparent accounting system. Despite numerous barriers in global steel trade, the Group maintains a significant export share to diversify its markets, contributing to foreign exchange earnings and balancing Vietnam's trade balance.

The Agriculture sector has just completed its listing on the Ho Chi Minh Stock Exchange under the ticker symbol HPA – Hoa Phat Agriculture Development Joint Stock Company. This sector contributes 5% and 10% respectively to the Group's consolidated revenue and after-tax profit. Profits hit VND 1,600 billion, an increase of 56% compared to 2024, thanks to increased sales volume and improved profit margins. After 10 years of operation in the agriculture sector, Hoa Phat has affirmed its leading position in the industry and continuously optimized its operational efficiency. Pig farming continues to

be the largest contributor, accounting for approximately 44% of total revenue. HPA's sow herd productivity reached 33-34 weaned piglets per sow per year, 1.5 times the Vietnamese average, thanks to the use of DanBred pigs from Denmark and a systematic farming process. The production of commercial pigs weighing 100kg hit over 380,000 head, up 5.9% compared to 2024. The production of piglets weighing 10kg hit nearly 280,000 head, up 39.5% compared to the same period. The animal feed sector recorded the highest output growth rate in 10 years, reaching 5.5%, placing Hoa Phat among the top 13 largest animal feed suppliers in Vietnam. For the poultry farming sector, Hoa Phat sold over 337 million eggs, an increase of 7 million eggs compared to the same period last year. Hoa Phat Group currently holds the No. 1 market share for clean chicken eggs in the Northern region, with nearly 1 million eggs per day.

In early 2026, Hoa Phat Agriculture successfully listed 285 million common stocks. On December 15, 2025 when the subscription period ended, HPA recorded a total subscription volume of 35,739,000 stocks, exceeding the offered amount by 19%. On January 06, 2026, HPA successfully completed its IPO, issuing 30 million stocks at a price of VND 41,900 per share, earning VND 1,257 billion. The company's registered capital increased from VND 2,550 billion to VND 2,850 billion after the issuance. On January 29, 2026, HPA received approval from HOSE to list 285 million common stocks with a par value of VND 10,000 per stock. On February 06, 2026, Hoa Phat Agriculture's ticker symbol HPA officially began trading on the Ho Chi Minh City Stock Exchange. The total value of listed securities at par value is VND 2,850 billion.

The Real Estate sector contributed 6% of the Group's total after-tax profit. The real estate sector achieved its revenue and after-tax profit targets as planned. In 2025, revenue from the real estate sector decreased by 19%, while after-tax profit increased by 48% compared to 2024. In 2025, Hoa Phat's industrial parks handed over an additional 42.6 hectares of land, filling almost all of the area invested in technical infrastructure. The total planned land fund of Hoa Phat's industrial parks (IP) is over 2,200 hectares, mainly in Hung Yen, Ninh Binh, Bac Ninh provinces and Hai Phong city. The Group owns and operates 7 IPs, including: Pho Noi A IP with an area of over 689 hectares (Hung Yen), Hoa Mac IP with 131 hectares (Ninh Binh), Yen My II IP with 313.5 hectares (Hung Yen), Dong Phuc IP with 354.6 hectares (Bac Ninh), Hoang Dieu IP with 247 hectares (Hai Phong City), IP No. 6 Phase 1 with an area of 230 hectares (Hung Yen), and Ly Thuong Kiet IP with 235 hectares (Hung Yen). Of which, Yen My II IP Phase 1 has an occupancy rate of 99%, Hoa Mac IP with rate of 96%, and Pho Noi A IP with rate of approximately 90%. Hoa Phat plans to develop more industrial parks in the coming time, increasing clean land and technical infrastructure to serve the investment

and business needs of domestic and foreign enterprises. In the next 10 years, the Group plans to develop 10 industrial parks, including existing ones.

The Home Appliances sector recorded an increase of 60% in revenue and an increase of 139% in after-tax profit compared to the same period in 2024, thanks to the development of a series of new products. Revenue in 2025 hit nearly US\$250 million. The refrigeration segment is continuously diversifying its products and distribution channels, aiming for export. The complex of home appliance plants, covering nearly 15 hectares, continues to increase the output of home appliances, kitchen equipment, etc., and their products are present nationwide through a diverse distribution system ranging from the Dien May Xanh supermarket chain, traditional electronics stores to e-commerce platforms such as Shopee, Lazada and Tiki to bring a convenient shopping experience to customers.

2. *Financial indicators (audited figures)*

- *Equity* as of December 31, 2025 is VND 131,220 billion, an increase of 14.5% compared to 2024.
- *ROE and ROA* as of December 31, 2025 reached 11.8% and 6%, respectively.
- *Total assets* of the Group as of December 31, 2025 are VND 257,899 billion, an increase of 14.9% compared to 2024. Of which, current assets are VND 103,659 billion, an increase of 19.6% compared to 2024 due to the gradual recovery of production appropriate to market developments; non-current assets are VND 154,240 billion, an increase of 11.9% compared to 2024 due to continued investment in key projects.
- *Total short-term and long-term loans* across the Group as of December 31, 2025 are VND 92,174 billion. The debt-to-equity ratio is 0.7 times, a slight decrease compared to 2024 (0.72). But NET debt-to-equity ratio is currently at 0.47 times, lower than the ratio of 0.5 times in 2024, which is the low average in terms of financial leverage. The debt ratio continues to be controlled at a safe level, helping the Group strengthen its spirit of steel towards achieving its goals in the near future.
- ***Total contribution to the State Budget in the year is nearly VND 13,500 billion.*** This is a year Hoa Phat has paid the highest amount to the State budget in the Group's 32-year history. The contribution to the budget in 2025 increased by 48% over the same period last year. In which, the subsidiary companies with the highest contributions to the budget are Hoa Phat Dung Quat Steel, Hoa Phat Hai Duong Steel, Hoa Phat Steel Pipe, Hoa Phat Refrigeration, Hoa Phat Construction & Urban Development. The Group is operating and contributing to the state budget in 26 provinces and cities across the country. Attaching its development with the interests of the community, Hoa Phat actively implements corporate social responsibility

focusing on 4 main groups: Health - Education - Transport and Community. In which, three provinces where Hoa Phat has the highest budget contributions are Quang Ngai, Hung Yen and Hai Duong. During the year, Hoa Phat Group was honored to be in the Top 30 Typical Taxpayers.

- Creating jobs for more than 31,500 employees throughout the Group.
- During the year, Hoa Phat also researched and applied modern management solutions such as ERP, human resources & payroll project, electronic office, at the same time added and completed processes and some other software for better management, towards the application of digital technology in managing production and business activities of the Group.

3. *Besides achievements, the Group also recognizes many challenges to face*

- Trade wars continue to escalate in many regions and countries, limiting Vietnam's steel access to foreign markets and significantly impacting exports;
- The Russia - Ukraine war, along with the large-scale attacks by the US and Israel on Iran, further intensifies the geopolitical situation globally. This is expected to increase the risk of volatility in raw material prices;
- The Chinese economy is expected to continue its slow growth, significantly impacting the steel supply and demand balance in this country. China is striving to address its steel surplus through exports, increasing trade tensions with other countries, including Vietnam;
- The price escalation of energy which is an essential commodity for the economy, causes increased inflation in many parts of the world.
- Central banks in various countries continue to maintain tight monetary policies, thus interest rates remain high.

II. **Assessment of position and orientation in 2026**

In May 2025, the Politburo issued Resolution No. 68 on private economic development, which identifies the private economic sector as an important driving force of the national economy. The Resolution aims to improve the business environment and ensure freedom and equality in private enterprises' operations. In the Resolution No. 01/NQ-CP dated January 08, 2026, the Government set a GDP growth target of 10% or more for 2026. These are very important documents, creating a legal framework to promote the national economy, including the private economic sector. With that mindset, the Board of Management has set the following directions for 2026:

- ✓ Stably operate phase 1 of the Hoa Phat Dung Quat 2 Iron and Steel Integrated Complex project and continue to invest in phase 2 of this Project;

- ✓ Invest in projects to produce railway rails, steel for train and high-speed rail wheelbase, and other kinds of high-quality steel to serve key national projects and export to the world.
- ✓ Continue to leverage strengths in livestock production management to increase business results and information updates after Hoa Phat Agriculture (HPA) successfully listed on February 06, 2026;
- ✓ Promote the implementation of projects such as industrial parks recently approved and housing projects;
- ✓ The home appliances sector focuses on expanding its product portfolio, innovating technology and developing its brand.
- ✓ Accelerate digital transformation and implement several other projects such as: E-office project phase 2 - digitizing documents and developing knowledge management systems;
- ✓ Standardize human resource management; MDM system – a shared data management platform throughout the Group.

With the goal of striving for growth in the market with many geopolitical factors and the unpredictable business environment, the Board of Management submits to the General Meeting of Shareholders for approval of the consolidated business plan for the Group in 2026 as follows:

Expected revenue:	VND 210.000 billion
Expected profit after tax:	VND 22.000 billion
